WE NEED YOUR HELP!

As we develop Bear Wood, an exciting exhibit due to open summer 2019, we need to create a woodland walk adjacent to the project. It will open up a new section of woodland and give our guests the chance to learn about our native wildlife and trees as they follow the new pathways.

Help us grow

We are looking for groups of volunteers to help restore a section of 800 metre woodland walk- tidying the path reinstating steps, edging and laying the path

This is also a great opportunity for teams to reap the benefits of working together to complete tasks, whilst being outdoors away for normal routine.

What to expect on the day

Get stuck in and you will find yourself creating pathways and steps through our woodland. You will be contributing to the total of 800m pathways within the bustling and active ancient woods.

When

Our volunteer days will run on Tuesdays and Thursdays all the way to summer 2019!

Cost

Group of 20 maximum per volunteer day. Suggested donation £400 per group which will cover materials for the day.

Day schedule

9.30am - Meet at Wild Place Project, briefing and site tour
10.30am - Morning activity
12.30pm - Lunch
1.30pm - Afternoon activity
3.30pm - Clear up and de-brief
